OBJECTIVE

Passionate full stack developer skilled in HTML, CSS, JavaScript, and modern frontend frameworks such as React JS, Redux and backend Node JS and database MySQL. I have a strong understanding of responsive web design principles and a keen eye for details. I am seeking for a challenging role to leverage my skills and to apply my knowledge for creating innovative solutions in a dynamic work environment.

EDUCATION

2024	PG-DMC CDAC, Sunbeam Pune 62.29
2022	MCA University of Lucknow 81
2020	BCA University of Lucknow 57.3

PROJECTS

Zillow Clone

Developed a comprehensive real estate platform, zillow.com clone, using React.js, Material-UI, JWT. The application facilitates user roles of buyer, seller, and agent, enabling property listing, purchasing, and leasing. Implemented advanced filtering capabilities by bedrooms, bathrooms, parking, price, and region, enhancing user experience and property search efficiency.
<https://github.com/W3-80495/zillow-clone>

iPhone Store

It is an iPhone eCommerce website which is implemented in MERN using MySQL and in this project I have implemented Redux and JWT. In this project a user can simply login and access the website and add any iPhone into the cart then further proceed with place order button.

Portfolio Website

Built a portfolio website using React and Material-UI. Features include a modern UI, interactive components, and a project gallery showcasing my work and skills. Demonstrates expertise in front-end development and design.
<https://github.com/W3-80495/MyPortfolio>

System Optimizer

The project was a desktop based application which is built on Eclipse IDE using Core Java and MySQL workbench. This helps our PC to run smoother, deletes the temp file and duplicate files.

Water Supply Management System

The project was a desktop based application which is built on NetBeans IDE using Core Java and MySQL where we store the stock, order and customer's details and generate the report of the order and the order bill.

Digital Library

The project was a website which is built on php using phpMyAdmin and MySQL. It stores and access the books online.

ACHIEVEMENTS & AWARDS

Certificate in Core Java using MySql from Analyze Infotech, Lucknow
