---

## Profile

Experienced Software Developer specializing in Healthcare Applications with 1.5 Years of Expertise

---

## Education

K. C. G. College of Technology, Chennai

2021

Bachelor Of Technology (B.Tech/B.E)

Mechanical

---

## Experience

Software developer | Gavs Technologies

Apr 2022 - Present

I have been primarily working at Max Healthcare hospitals, where I was involved in creating a new application that builds upon a legacy system. My expertise includes Angular for frontend development, MSSQL for database management, Crystal Reports for generating reports, and also experienced in manual testing to ensure the application's quality. My role involves modernizing the legacy application using a combination of these technologies.
