Compute , Storage

ABOUT ME:

Mern Stack Developer with 3+ years of experience I have built web pages that are more user-interactive using technologies like HTML,CSS,Javascript,React.js,Redux,Node.js,MongoDB. Angular,etc Experienced in REST API development, Agile methodologies, and CI/CD pipelines

EXPERIENCE

Mern Stack Developer, Zest India It Services

November 2021 – present | Pune, India

PROJECTS

Invoicer-Wiz

Platform : MERN Stack (MongoDB, Express.js, React, Node.js), Material-UI

Project Name: Invoicer-Wiz

- Developed a web application for creating and managing invoices.
- IT enabled users to generate detailed estimates, which provide clients with an initial projection of costs and scope before work begins.
- and also allowed users to convert estimates into invoices for billing purposes and send them directly to clients.
- Implemented backend and APIs with Node.js and Express.js, and managed data using MongoDB.
- Utilized Material-UI for designing responsive and user-friendly interfaces.
- Integrated Handlebars to dynamically generate and format PDFs for invoices and estimates.
- Developed a web application for creating and managing invoices, reducing manual effort by 50% and improving billing accuracy by 50%

Jobscout

Platform: MERN Stack

Project Name: Jobscout

Jobscout is job portal website in which users can apply for different jobs and can check status of jobs whether job getting shortlisted or rejected for interview It is based on mern stack . In this project i leveraged MongoDB for database management, Node.js and Express.js for the backend API, and React for a responsive and interactive frontend.

INTERESTS

React Developer, Full Stack Developer, Software Developer, AWS
