TRAININGS

Back-End Web Development

Internshala Trainings, Online
Mar 2024 - Jul 2024

Successfully completed a comprehensive training program focused on backend development using the MERN (MongoDB, Express.js, React, Node.js) stack. Developed proficiency in creating RESTful APIs, handling CRUD operations, and integrating MongoDB as the database solution.

Front-End Web Development

Internshala Trainings, Online
Jan 2024 - Mar 2024

Acquired proficiency in HTML, CSS, JavaScript, and modern frontend frameworks.

- Developed responsive web applications with a focus on user experience and accessibility.
- Completed hands-on projects including [E-commerce website clone] to demonstrate practical skills.
- Gained experience with version control systems like Git and collaboration tools like GitHub.

Full Stack Web Development

Internshala Trainings, Online
Jan 2024 - Jul 2024

Completed a comprehensive training program on full stack development using the MERN (MongoDB, Express.js, React, Node.js) stack. Developed RESTful APIs and integrated MongoDB as the database solution. Implemented user authentication with JWT and built

dynamic user interfaces with React. Connected frontend applications to backend APIs, ensuring seamless data flow. Deployed full-stack applications to cloud platforms and utilized Git for version control.

GENERAL APTITUDE

Internshala Trainings, Online
Jan 2024 - Jul 2024

Successfully completed online certified training on General Aptitude. The training consisted of Aptitude evaluation, Reading Comprehension, Quantitative Aptitude, Logical Reasoning, and Data Interpretation modules.

PROJECTS

Social Media App (Twitter clone)

Mar 2024 - Jul 2024

Built a Twitter clone with features like user login, registration, creating and deleting a tweet, adding an image to a tweet, liking and disliking a tweet, adding and replying to a tweet, retweet, read all the tweets in an app, create and edit a user, follow and unfollow user, view a user profile details, update profile picture including uploading images using multer, etc.

Homepage of digital marketing with Get form

Jul 2024 - Jul 2024

<https://github.com/Ritik-Koliyal/HomepageDigitalmarket>

Small frontend assingment using html css and javascript

E-Commerce App

Feb 2024 - Mar 2024

<https://tourmaline-bienenstitch-a6c177.netlify.app/>

Created an eCommerce website that allows sellers to showcase their products by posting pictures, adding descriptions, including rate tags, and also allows user to login signup with authantication ...
