Summary — Results-oriented Full Stack Developer with a track record of successfully completing over five projects in a dynamic startup environment. Demonstrates a strong ability to deliver scalable and innovative solutions while adapting to rapidly changing requirements. Experienced in managing all phases of the development lifecycle, from concept through deployment, with a focus on building high-quality web applications and driving business growth. Known for exceptional problem-solving skills and a collaborative approach to achieving project goals.

Skills

Front-End Development HTML, CSS, JavaScript, React
Back-End Development Node.js, Express.js, Java Spring Boot
Database Management MongoDB, SQL, Hibernate
Key Skills Data Structures and Algorithms (Java)
Developer Tools Eclipse IDE, Postman, VS Code
Version Control Git

Experience

Srishti (Srishti India Design Studio Pvt Ltd)

Jun 2023 – Present

Web developer (Full Stack Developer)

J. P. Nagar, Bengaluru, Karnataka 560078

- Implemented developed both front-end and back-end components, ensuring seamless UI/UX integration and robust backend functionality.
- Leveraged modern technologies to create scalable web applications, optimizing performance and enhancing user experience.
- Collaborated with clients and team members to define project goals and deliver engaging solutions, including cutting-edge React applications and interactive newsletters.
- Designed and built responsive websites, performed cross-browser testing, and deployed applications to production servers, adhering to industry best practices in coding, accessibility,

JSpiders Basavanagudi

Sept 2022 – Apr 2023

certified Full Stack Developer(Program) (FSD)

Basavanagudi Bengaluru, Karnataka

- Gained comprehensive experience across the full technology stack, including front-end, back-end, and database technologies.
- Actively participated in the development and deployment of various projects, contributing to both coding and project management tasks.
- Assisted in building and deploying web applications, gaining hands-on experience with industry-standard tools and practices.
- Collaborated with team members to understand project requirements and deliver functional, high-quality solutions.

Certifications

- Java Full Stack program - Java, Hibernate, SQL, React, Spring, Web Technology

Education

JSS Science and Technology University, Mysuru

Mysuru, Karnataka 570006

bachelor of engineering in CTM

2018-Aug - Mar-2023

Projects

Vendor and Employee Management System - 🔄

june 2024

- Developed a Vendor Employee Management System using React, Nodejs, Express, and MongoDB to streamline SME operations.
- Implemented vendor and employee CRUD operations with API integration for dynamic data fetching and management.
- Utilized React Hooks (useState, useEffect) for state management and API handling in the frontend.
- Created a responsive UI for managing vendors and employees, ensuring user-friendly navigation and functionality.

Full-stack Employee Management System 🔄

Jan 2024

- Designed and implemented a full-stack Employee Management System using Java Spring Boot for the backend and React for the frontend to manage employee data and workflows efficiently
- Developed RESTful APIs with Java Spring Boot to handle CRUD operations for employee records, including fields such as name, designation, CTC, and email.
- Integrated Axios for smooth API communication between React and Spring Boot.
