+91-8013000085 | linkedin.com/in/rg85rajat | rg85rajat@gmail.com

## SKILLS

### FRONT END

- JavaScript • HTML • CSS
- React.js • Redux • Bootstrap
- Tailwind • Next.js

### BACK END

- Node.js • Express.js

### DATABASE

- Oracle • MySQL • SAP HANA

### AREA OF INTEREST

- Git • REST API • C++ • SQL
- Data Structure • Algorithms

## EDUCATION

Lovely Professional University

B-Tech, Computer Science Engineering

📅 2018 – 2022    📍Punjab, IN

## ACHIEVEMENTS

- Recognition for delivering high-quality code.
- Recognized for diplomatic and leadership abilities.
- Received positive feedback from clients for effectively understanding their requirements.

## PROJECTS

### YOUTUBE CLONE

React.js, Redux, API, Debouncing

- Used YouTube API to get the video lists by categories.
- Built search functionality that use debounce technique to get the response of the query.
- Ensured responsive layout that adapts well to different devices and screen sizes

### PROJECT MANAGEMENT TOOL

React.js, Express.js, Tailwind, Redux, MongoDB

- Created components for tasks, projects, and user dashboard to track progress and deadlines.
- Integrated with MongoDB for data storage.
- Used CRUD functionalities for task and user information.

### TO DO APP

React.js, Material UI, Express.js, Redux

- Developed a to-do list application for efficient task management
- Designed user-friendly interface with features like task categorization, due dates and priority.

## WORK EXPERIENCE

HIGHRADIUS | ASSOCIATE SOFTWARE ENGINEER

📅 June 2022 – Oct 2023    📍Telangana, IN

- Served as Full-Stack developer, collaborated with cross-functional teams to develop and enhance **React**-based web applications.
- Design, develop, and maintain efficient and reliable code using Java, following best practices, and coding standards.
- Integrate web applications using **Express.js**, **Node.js**.
- Participate in requirements gathering, analysis, and solution design discussions.
- Performed **debugging** during production issues to ensure the quality and reliability of the applications.
- Collaborate with QA engineers to identify and achieve **56%** improvement in response time using **MySQL** indexes.
- Assist in the deployment and maintenance of applications on production servers using **Git**.
- Stay up to date with the latest technologies and trends.

HIGHRADIUS | TRAINEE SOFTWARE ENGINEER

📅 Aug 2021 – June 2022    📍Telangana, IN

- Rendered technical expertise in software development life cycle and React.js.
- Gained hands-on experience and practical exposure to software development processes and methodologies.
- Developed interactive and customized UIs using **JavaScript**, **React.js**, **JSP** and **CSS** to improve functionality of web application.
- Implemented **Rest API** for User Interface where **CRUD** functionalities could be performed.
- Assisted senior developers in coding, testing, and debugging software application.
