Objective

I am a react developer with 2 years of experience. I have been working with react for the past two years and have gained a strong understanding of the framework and its various features and tools. I am always looking for ways to improve my skills and stay up to date with the latest developments in the react

Skills

HTML, CSS, Javascript, Typescript, React, Redux, Nextjs

Experience

Orcablue

Jan, 2021 - Present

Frontend developer

- Led a frontend development team in the creation of a new dive app from scratch.

- Worked closely with the backend team to ensure smooth integration between the frontend and backend of the app.

- Collaborated with the customer team to gather feedback and incorporate their requests into the final product.

- Successfully launched a highly functional and user-friendly dive app.

Infosys

Jan, 2019 - Jun, 2019

Intern

- Worked on a project called you party we organise.

- Techstack: HTML, CSS, Angular, Java, Mysql

Projects

XFlix (https://chander-xflix-frontend.netlify.app/)

- XFlix is a video sharing platform which will host videos for the world to watch.

- It'll also feature uploading new videos by using external video links (eg: Youtube) and displaying video fetched from the link.

- Techstack : React, Material UI, Context API, REST APIs.

QKart (https://chander-qkart-frontend.netlify.app/)

- QKart is an e-commerce application offering a variety of products for customers to choose from.

- Implemented the core logic for authentication, shopping cart and checkout

- Improved UI by adding responsive design elements for uniform experience across different devices.

- Utilized REST APIs to dynamically load and render data served by the backend server

- Techstack : HTML, CSS, JS, React, REST APIs.
