WORK EXPERIENCE

DATA PRO3X SOLUTION PVT LTD | NOV 2022 - NOW

- Developed and optimized web applications using React.js and Redux, resulting in a **20%** increase in performance and user engagement.
- Implemented responsive designs with Bootstrap and Material UI, ensuring a consistent and visually appealing user experience across various devices.
- Conducted comprehensive debugging and root cause analysis, reducing issue resolution time by **30%** and improving overall code stability.

PROJECT EXECUTED

TITLE - SUD

CLIENT - SUD LIFE INSURANCE

ROLE - FRONTEND DEVELOPER

TECHNOLOGIES/TOOLS - REACT.JS, GIT, POSTMAN, REDUX, MANGO DB ,NODE.JS,EXPRESS.JS

**PROJECT OVERVIEW**- This System serving as a hub for customer data and claim management. It centralizes policy details, facilitates receipt attachment, and enables real-time tracking of policy holder activities, enhancing operational efficiency and decision-making.

Key Responsibility

- Developed a dynamic UI based on BRD specifications, ensuring accurate and responsive design.
- Performed API testing using Postman to validate functionality and reliability.
- Implemented lifecycle hooks for effective state management and form validation.
- Consumed REST APIs to display real-time data in the UI.
- Created and maintained services for business logic and data handling.
- Utilized Bootstrap and Material UI for a responsive and visually appealing interface.
- Integrated bytecode conversion to PDF on the UI side, enabling seamless document generation and display.
