- Also worked in quality control department.
- Coordinated with team members.

## TECHNICAL SKILLS

React.js

Material UI

Redux Toolkit

JavaScript

Typescript

Slate.js,

Y.js

Node.js

Express.js

MongoDB

RESTful API

Skill

jira

Confluence

Git

## PROJECTS

### Virtual Interactive Learning [🔗](#)

- Crafted a dynamic conferencing application catered to training programs, ensuring smooth communication in many scenarios. Implemented virtual desktop infrastructures for an enriched collaborative learning environment.
- Additionally, the tool incorporates gamification elements and allows for the creation of breakout rooms, enabling a highly engaging and interactive learning experience.
- Integrated recording feature that enables users to capture audio and video content during sessions. This functionality facilitates on-demand learning, allowing participants to revisit and review sessions at their convenience.

### Portego (Role- Front End Developer) [🔗](#)

- Portego is a CPAAS (Conferencing Platform as a Service) Solution.
- Conferencing Platform as a Service (CPAAS) facilitates virtual meetings and collaboration.
- Billing is done on a minute basis
- Worked on designing, planning, user-friendly UI, and CRUD operations.

### Collaborative Documentation Platform

- **Rich Text Editing with SlateJS:** Utilized SlateJS to enable robust and customizable rich text editing capabilities within the platform. Users can format text and create structured documents with ease.
- **Real-time Collaboration with Yjs:** Implemented Yjs for real-time collaboration features, allowing multiple users to simultaneously edit documents, see changes in real-time, and track version history seamlessly
- **Responsive UI with ReactJS:** Designed a responsive user interface using ReactJS, ensuring optimal viewing and interaction across devices. The interface is intuitive and aligned with Figma wireframes for a consistent user experience.
- **Workspace Management:** Users can create and manage multiple workspaces within the platform, organizing documents and collaborations based on projects, teams, or topics.
