Master of Computer Application (2022-2024)

Amity University Lucknow Campus

Bachelor of Technology (2018-2022)

PSIT Kanpur

PROJECTS

PlayTube Website (September 2024)

MERN

- PlayTube is a full-featured web application built using the MERN stack (MongoDB, Express, React, Node.js), allowing users to share and discover video content.
- Users can create accounts and log in to access personalized features and manage their profiles securely.
- The application supports seamless video uploads, and users can edit and delete their uploaded videos, providing them with full control over their content.
- Users can post tweets, interact with other users' tweets, and view a feed of recent tweets, enhancing the social aspect of the platform.
- It utilizes Context API for efficient state management, enabling smooth data flow and updates across the application. The application is also fully responsive, ensuring an optimal user experience across various devices.

Blogify Website (July 2024)

ReactJS

- Developed "Blogify," a full-stack blogging platform using ReactJS for interactive frontend and appwrite for backend
- Implemented key features including user authentication, blog creation, editing, drafting, and viewing posts.
- Managed state efficiently with Redux to handle complex UI states and ensure smooth user interactions.
- Integrated Appwrite for backend services, providing secure user management, database operations, and storage.
- Ensured a seamless user experience with a modern, responsive design and optimized performance across devices.
