

VIKAS KUMAR

Data Analyst

8527531585 

imvikaskumar99@gmail.com 

India, Ghaziabad, 201009 

EDUCATION

2016 - 2020

Bachelor of Technology

Dr. A.P.J. Abdul Kalam Technical University /
India, Ghaziabad

SKILLS

• Python	Expert
• SQL	Expert
• R Programming	Skillful
• Pandas & Numpy	Expert
• Power BI	Expert
• Scrapy	Expert
• Selenium	Expert
• Data Analysis	Expert
• Data Visualization	Expert
• Machine Learning	Skillful

COURSES

2022

IBM Professional Data Science

IBM - Coursera

2022

IBM Professional Data Analyst

IBM - Coursera

AWARDS

- 3rd Winner in State Level Innovation Competition
- Won Consolation in State Level Innovation Competition

LANGUAGES

- English
- Hindi

EXPERIENCE

2022 - 2023

Data Analyst

Aimleap / India, Bangalore

Utilized advanced data mining techniques to analyze and interpret the data; and identify patterns and trends for various projects. Developed effective strategies to optimize the efficiency of the data analytics process. Gained significant expertise in analyzing and interpreting large datasets. Responsibilities included:

- Developing predictive models
- Creating dashboards with visualizations
- Implementing new technologies for data analysis
- Analyzing complex datasets
- Automating data processes
- Generating actionable insights from data

INTERNSHIPS

2022 - 2022

Data Science Intern

Innomatics Research Labs / India, Hyderabad

Acquire a solid foundation in various aspects of data science :

- Exploratory data analysis and data preprocessing techniques.
- Data visualization and storytelling using data to communicate insights effectively.
- Advanced data manipulation and data cleaning using Pandas

PROJECTS

Open Pub

Let's assume you are on vacation in the United Kingdom with your friends. Just for some fun, you decided to go to the Pubs nearby for some drinks. Google Maps is down because of some issues.

SpaceY

The aim of this project is to predict if the Falcon 9 first stage will successfully land SpaceX says on its website that the Falcon 9 rocket launch cost 62 million dollars. Other providers cost upward of 165 million dollars each.
