Backend : Node.js, Express, RestAPI

Databases : MongoDB, Firestore

Integrations : Payment Gateway, Firebase

Developer Tools : Git, Postman

EXPERIENCE

Frontend Developer | EGuidance Labs LLP, Kochi, Kerala

August 2023 - Present

- Developed and maintained front-end features for multiple products, including a food delivery app, Ed-tech, Events-tech, superadmin-dashboards and crm platforms, using React and Tailwind.
- Integrated APIs efficiently, improving communication between the front-end and back-end, and ensuring smooth data flow across applications.
- Optimized application performance by implementing strategies like map-based rendering, reducing loading times, and enhancing user experience.
- Improved code quality by following best practices in front-end development, resulting in cleaner, more maintainable codebases.
- Collaborated with cross-functional teams to deliver responsive, high-performance UI components, ensuring consistent product quality.

Frontend Developer Intern | Enfono Technologies, Malappuram, Kerala

March 2023 - June 2023

- Designed and implemented user interfaces for web applications at Enfono Technologies, focusing on delivering visually appealing and responsive designs using HTML, CSS, JavaScript, and React.
- Worked on an agriculture product and its dashboard, applying front-end expertise to develop efficient and interactive user interfaces.

Web Developer Intern | Websoullabs, Kochi, Kerala

August 2022 - February 2023

- Completed an internship at WebSoulLabs as a MERN stack developer, contributing to multiple projects and gaining hands-on industry experience.
- Started with front-end development, mastering technologies like HTML, CSS, and JavaScript, before moving to back-end development.
