## CAREER PROFILE

---

I'm a Software Developer with almost **2+ years** of IT experience. I specialize in building **robust** and **flexible** software using various technologies. I create full-fledged web applications that serve users and businesses well. **Teamwork** is a strong suit, ensuring on-time delivery of high-quality applications. I'm committed to continuous learning and staying updated with the latest tech trends.

## TECHNICAL SUMMARY

---

### ❖ Technologies:

- I am proficient in **HTML**, **CSS**, and **JavaScript**, enabling me to create responsive and dynamic web applications.
- Strong command of **JavaScript**, allowing me to write clean, maintainable, and efficient code for both **front-end** and **back-end** development.
- Skilled in building user UI interfaces with **React JS**, using libraries and components to enhance the user experience.
- Familiar with **Bootstrap** and **Material UI** for designing aesthetically pleasing and intuitive front-end interfaces.
- Basic knowledge in back-end development using **Node JS** and **Express JS**, enabling the creation of server-side applications.
- Creating Database using **MongoDB**, working with **JSON** data to develop scalable and efficient databases.

### ❖ Development Tools:

- Experienced in using **Visual Studio Code** for code editing and development, enhancing productivity.
- Proficient in **Firebase** for backend services and real-time database integration.
- Proficient in **Git** and **GitHub** for version control, enabling collaborative development and effective code management.

## TECHNICAL SKILLS

---

**Technology:** HTML, CSS, JavaScript, React JS, Bootstrap, Material UI, Redux, Sass/Scss, Node JS, Express JS, JSON, Firebase

**Database:** MongoDB, MySQL

**Development tools:** Visual Studio Code, NPM Package, Git, GitHub, Postman

## Work History

---

### Software Engineer

**TableSprint Technologies Private Limited, Bangalore**

**PROJECT :** TableSprint

**Role:** Full Stack Developer

**Technology/Skills/Tools used:** HTML, CSS, JavaScript, React JS, Redux, Tailwind CSS, Node JS, Express, PostgreSQL, NPM, Git, GitHub, Postman.

#### **Roles and Responsibilities:**

- Analyzed business requirements, participated in technical design and development.
- Created user interface and navigation structure.
- Developed the Front-End User Interface using React JS and Tailwind CSS and Elstar components.
- Implemented client-side validations in forms/fields using Formik package.
- Worked extensively with the libraries like react-router-dom, formik, axios, redux, tenstack-table, react-grid-layout, lodash, etc.
- Worked with Redux for global state management in application.
- Fixed bugs and provided support services for the application.
- Created table interface to show JSON Data and made pagination.
- Used tenstack-table for creating cell dependent table and for infinite scrolling.
- Worked with REST API to create services.
- Improved the performance and response time of the application using React hooks like useMemo, useRef.
- Extensively used JSON and DOM scripting to create interactive web applications.
- Work closely with cross-functional teams.
- Using Git/GitHub, enhance project collaboration, ensuring efficient version control and development management.

### Software Engineer

**NWS Soft Consulting Private Limited, Pune**

**PROJECT :** Insurance

**Role:** Full-Stack Developer

**Technology/Skills/Tools used:** HTML, CSS, JavaScript, React JS, Material UI, Sass/Scss, Node JS, Express, MongoDB, Firebase, NPM, Git, Github.

#### **Responsibilities:**

- Developed User Interface and navigation structure using React JS, Material UI, Sass/Scss.
- Created login and registration page UI with validation and also used firebase authentication to authenticate users.

- Used useContext hook for global state management.
- Ensuring responsive applications for optimal user experience and performance.
- Created Form for user with validation for details.
- Created rest-full services and tested on Postman.
- Used Node and Express for creating backend services.
- Created api for fetching data to database (MongoDB).
- Worked on auto generate pdf for user using pdfmake package.
- Utilize Git and GitHub for code version control and collaboration.
- Responsible in code optimizing and test across browsers.
- Participate and conduct code reviews.
- Actively participated in meetings with clients to determine website goals and development strategies.

## EDUCATION

Qualification	Passout Year	Percentage
10 <sup>th</sup> SSC Board	2017	66.80
12 <sup>th</sup> HSC Board	2019	49.80
BCA	2022	74.45

## PERSONAL DETAILS

Name	Aman Mourya
Date of Birth	June 23, 2001
Permanent Address	Ganapati Society, Tukaram Nagar, Kharadi, Pune - 411014
Marital Status	Unmarried
Language	Hindi, English, Marathi
Hobbies	Chess, Coding, Cycling
Mobile No	9518550907
