Projects

Employee Allocation Dashboard

- **Description:** Employee allocation is the process of assigning and managing employees allocated on project in a manner that supports organization's strategic planning and goals. It involves identifying and assigning employees to various activities for a specific period. Also monitors the employee's workload throughout the project lifecycle and reassign them if necessary.
- **Roles and Responsibilities:** Designed and implemented the dashboard, monitored employee workloads, and ensured alignment with strategic goals.

TimeGo X QuickBooks Integration

- **Description:** TimeGo X QuickBooks Integration project, a seamless solution aimed at strengthening time tracking and invoicing processes for TimeGo employees. The primary goal was to empower users effortlessly sync their timesheets with QuickBooks, both automated sync functionality, manual options.
- **Roles and Responsibilities:** Designed and implemented application phases, participated in architectural development, and performed bug fixing and software analysis.

Achievements

- **Thank You, Card:** Recognized for excellent performance.
- **Team of the Quarter Award**
