

Lokesh Mishra

As a software developer with over 2.2 year of experience, I specialize in backend development focusing on building scalable, high performance system. I optimize database performance, and continuously improve my coding skills. I'm eager to deliver efficient, reliable backend solutions.

Work Experience

Compendious Med Works

April 2023 - May 2025

- Developed and maintained web application using Laravel framework, delivering high-quality, scalable solutions.
- Built RESTful APIs for efficient data management and third party integrations.
- Implemented database schema design and optimized queries to improve performance and reduce load time.
- Integrated authentication & authorization mechanism using Laravel's built-in features such as Passport and JWT.
- Collaborated with cross-functional teams to ensure smooth integration between the backend and frontend.

Ducat Institute

Sept 2022 - March 2023

- Developed and maintained Laravel-based web applications, focusing on building efficient and scalable systems.
- Worked on integrating third-party services and APIs to extend application functionality.
- Collaborated with frontend teams to ensure seamless communication between backend services and UI components.
- Participated in code reviews and contributed to improving code quality and development practices.

Educational Background

BTech

AKTU University
June 2020 - Sept 2023
7 CGPA

Diploma

Integral University
Aug 2017 - Aug 2020
78%
