### **Speak ABC's**

62 Days

This basic and simple educational application developed in collaboration with nursery school and kindergarten teachers lets your child develop English character recognition and pronunciation. It is said that an educator's real task is to remove distractions from learning and let the child's natural inquisitiveness do its job of exploration and discovery. True to this, the application is unconventionally kept free of drastic animations and sounds, and of course, the application is free of any kind of advertisements. For holistic development, the application engages multiple senses; visual, auditory, somatic/touch apart from utilizing speech recognition, associative techniques for strengthening memory and being highly interactive.
