Personal Details

- Address: 306, Tulsi Complex, Kalyan Road, Bhiwandi, Thane – 421302
- Date of Birth: 17th December 1989
- Languages Known: English, Hindi and Marathi

- Crafting intuitive and compelling mobile app interfaces alongside UI/UX experts, elevating user experience to new levels.
- Guiding a top-performing Mobile App Development Team, fostering a culture of innovation and ensuring successful project outcomes.
- Delivering key portfolio insights in collaboration with the product team, supporting data-driven decision-making processes.
- Partnering with the design team to create seamless UI/UX experiences, meaningfully boosting app usability.
- Nurturing junior developers through mentorship, cultivating a collaborative and growth-focused team environment.

Highlights:

- **Eduvanz App:** Architected and launched a transformative app for loan applications, incorporating advanced features such as e-KYC, OCR, cKYC, NACH payments, and autofill data, resulting in a notable increase in applications and streamlined approval processes.
- **Edusalez App:** Innovated an app that optimized attendance tracking and meeting management for sales employees, leading to higher adherence to schedules and reduced administrative burdens.
- **WzrCred App:** WzrCred is a loan application developed using Flutter that features several advanced functionalities. These include eKYC for streamlined identity verification, a soft pull mechanism to access user details with just a name and mobile number, NACH for automated payment collections, and integration with payment gateways. The app also allows users to apply for multiple loans through a single account.

Projects:

- **WzrCred App**
- **Stridepe App**
- **Eduvanz App**
- **Edusalez App**

Android Developer

Biztran Solutions Pvt. Ltd., Mumbai

May 2016 - May 2018

Responsibilities:

- Partnered with UI/UX teams to develop high-impact Android/iOS applications, ensuring superior functionality and user satisfaction.
- Proactively identified and resolved issues during testing, optimizing app performance for peak reliability.

Highlights:

- **VECARE App:** Engineered a cutting-edge app for real-time location tracking, service call updates, and feedback collection, greatly enhancing operational efficiency for service engineers.
- **Sewells Play App (iOs/ Android):** Sewells Play, part of the Sewells Group's Dual Loop Model, harnesses SMAC (Social, Media, Analytics, and Cloud) to provide a unified learning and engagement experience. The platform uses third-party push notifications from Urban Airship to keep users informed. Other apps within the Sewells Play suite include Hero Play, Ford Play, and Training Academy, all of which offer localization in multiple languages such as English, Thai, Indonesian, and Vietnamese.

Projects:

- **VECARE App**

- Sewells Play App (iOs/ Android)
- VEGO Sales App
- Coolerkig App
- BR Enterprise

Trainee Software Engineer
Ember Technologies, Mumbai

September 2015 - April 2016

Responsibilities:

- Executed robust code solutions based on project specifications, contributing to high-quality software deliverables.
- Collaborated with the UI/UX team to elevate application aesthetics and user experience.

Project:

- **TCDC Visa Reconciliation (DotNet)**
