## SUMMARY

Accomplished Flutter Developer experienced in developing mobile applications, developed 8+ projects. Proven track record in leading the development of high-performance apps, optimizing code for better performance, and implementing advanced state management solutions. Skilled in collaborating with cross-functional teams to deliver seamless functionalities and enhance user experiences.

## WORK EXPERIENCE

### Flutter Developer, Kanishka Software Pvt. Ltd. (Sep 2023 - Present)

- Implemented state management solutions using Provider, enhancing app stability and user experience.
- Collaborated with cross-functional teams, including UI/UX designers and backend developers & testers, to deliver seamless app functionalities.
- Integrated RESTful APIs for efficient data retrieval and manipulation, ensuring robust backend communication.

### Flutter Developer, Maqja Consultancy Services (June 2022 - Feb 2023)

- Designed and developed a comprehensive mobile app, integrating third-party services. - Optimized app performance by refactoring code and reducing memory leaks, resulting in increased app responsiveness.
- Conducted research and gathered feedback to improve app features and user satisfaction.

## PROJECTS

### HealthyU (Flutter, Riverpod, Firebase, Google Maps, WebView)

- Developed a health and wellness app with user authentication, fitness tracking, and personalized recommendations.
- Integrated API for real-time product fetching, add to cart, wishlist, and notifications.

### KoMark (Flutter, Firebase, GetX, Video Player)

- Built a marketing campaign management app with campaign tracking and analytics.
- Implemented post uploading, fetching posts, and playing videos.

### **Inventory Management System (Flutter, Provider, Payment Gateway, Notification)**

- Designed an inventory tracking solution with product categorization, stock level alerts, and inward-outward entry system.
- Integrated a robust search and filtering system for efficient product retrieval.

### **Visitor Management System (Flutter, Provider, QR Code, Printing)**

- Created a system for managing visitor check-in/out with QR code generation and printing.
- Implemented features like visitor photo capture, employee selection, and purpose tracking.

## **EDUCATION**
