

Shivam Singh

Full Stack Developer

As a MERN Stack Developer with 3 years of experience, I specialize in building scalable, high-performance web applications using MongoDB, Express.js, React.js, and Node.js. I have a strong understanding of front-end and back-end development, ensuring seamless integration between user interfaces and server-side logic. Proficient in crafting responsive and dynamic UI components with React, I focus on optimizing performance and enhancing user experience. On the backend, I develop robust APIs and database solutions to handle complex business logic efficiently. Passionate about writing clean, maintainable code, I continuously explore emerging technologies and best practices to stay ahead in the ever-evolving web development landscape. My goal is to create intuitive, efficient, and innovative solutions that drive business success.

Experience

2023 February-Present

Bhangale Software OPC Pvt. Ltd. Full Stack Developer

As a Full Stack Developer at Bhangale Software OPC Pvt. Ltd, I specialized in creating dynamic user interfaces by leveraging React's component-based architecture for the frontend. Additionally, I worked on the backend, collaborating closely with designers and other backend developers to implement responsive and visually appealing web applications. I proficiently integrated APIs, managed application state, and upheld code quality through testing and debugging, contributing to the creation of seamless user experiences across the entire stack.

2022 June - 2023 February

Techdock Labs React.js & Backend Developer

As a React.js developer at Techdock Labs, I specialized in creating client-focused web solutions. Leveraged React's components for interactive interfaces, collaborated with cross-functional teams, and ensured high-performance outcomes through state management and API integration.
