## PROFESSIONAL EXPERIENCE

Worked as Tableau Developer in Wipro, Chennai from June 2021.

**Project Name** : RCM (Revenue cycle management)

**Client** : Michigan

**Duration** : June 2021 to till date.

**Environment** : Tableau desktop, tableau server & Oracle.

**Description :** Revenue cycle management (RCM) is the financial process, utilizing medical billing software, that healthcare facilities use to track patient care episodes from registration and appointment scheduling to the final payment of a balance. RCM unifies the business and clinical sides of healthcare by coupling administrative data, such as a patient's name, insurance provider and other personal information, with the treatment a patient receives and their healthcare data.

**Roles and Responsibilities:**

- Gathering the requirements from the Business users and understanding the functionality & business rules. Responsible for creating dashboards and overall creation of data visualization.
- Created dashboard designing with effective data visualization of large data volume from data sources.
- Developed Tableau data visualization worksheets with different styles like bar, pie, tree map, dual axis, donut chart and Geographic Map.
- Developing worksheets using parameters, calculated fields, groups, sets and hierarchies. Use Excel, CSV, and SQL-Server as data source for designing Tableau Report and Dashboard.
- Developing data model to create reports and dashboards.
- Creating rich dashboards using Tableau Dashboard and applying actionable insights.
- Combined multiple dashboards into single story to enhance the visual appeal of the report.
- Developed Tableau workbooks from multiple data sources using Data Blending.
- Delivering project goals and overview to the new joiners and fresher's.
