PROFILE

Innovative Full Stack Developer with a passion for turning complex problems into elegant, user-friendly solutions. With **1** years of experience in building cutting-edge web applications, I specialize in seamlessly integrating front-end and back-end technologies to create cohesive and high-performing systems. Skilled in a diverse tech stack, including **React**, **Node.js**, **Express.js** and various databases, I thrive in dynamic environments where creativity meets technical excellence.

WORK EXPERIENCE

- **Vedsar India Pvt. Ltd. | Software & Website Development Company Prayagraj**
Aug 2023 - Present

PROJECT-

- **Coaching Management Website**
 - Video Classes: Integrated video streaming functionality for live and recorded classes, allowing students to access course material on-demand.
 - PDF Resources: Enabled the upload and management of PDF documents, providing students with easy access to study materials and course notes.
 - Student Admission & Registration: Developed a comprehensive system for student admission and registration, including secure user authentication and profile management.
 - Course & Subject Management: Built features for course and subject management, including creation, editing, and categorization of courses and subjects to streamline the educational content delivery.
 - Interactive Dashboard: Designed an intuitive dashboard for both students and instructors to track progress, view schedules, and manage their profiles.
- **Blog App Creation**
 - Built a dynamic blog application utilizing React for the frontend and Node.js/Express.js for the backend. Implemented CRUD operations for blog posts, user authentication, and responsive design to ensure an engaging and user-friendly interface. Employed MongoDB for efficient data storage and retrieval, and integrated image uploads and user comments to enrich content interaction.
