PROFILE

Highly motivated and detail-oriented data analyst with a strong foundation in data analysis and problem-solving. Seeking an entry-level position as a data analyst to apply my skills and knowledge in a professional setting and contribute to data- driven decision-making processes

PROJECT

EXCEL PROJECTS

Vrinda Store Detail

Vrinda Store created a report using Excel to display their sales for various months, categories, prices, payment methods, and order statuses. The report provides a comprehensive overview of their sales performance, allowing them to identify trends, make informed business decisions, and stay on top of their financials.

Road Accidents Report

This project titled "Road Accident" is a report that uses Excel to display data on the causes of accidents, including those involving vehicles and those that do not. The report provides an analysis of the reasons behind each accident and the factors that led to it. The data is displayed in a clear and concise manner, making it easy to interpret and understand.

POWER BI PROJECT

Dashboard of E-commerce Website

The sales of Product X are higher compared to other products. The profit and loss of the company depend on the sales of the product X. The majority of sales for Product X are made through mode of transactions.

SMALL ACHIEVEMENTS

College Placement

- learningshala, Delhi
- Skolar, Bangalore
- KGP99, Noida
