(+91) 9564203713 | mahmadulhasan623@gmail.com | LINKEDIN | GITHUB | Kolkata, WB., INDIA

A dedicated and detail-oriented web developer with experience in PHP and front-end development, proficient in building dynamic, responsive, and user-friendly websites. Skilled in HTML, CSS, JavaScript, PHP, and MySQL, with a solid understanding of full-stack development. Currently expanding my expertise by learning React and aiming to master the MERN stack to broaden my technical skill set and work on modern web applications. Seeking to contribute to innovative projects in both web and full-stack development.

## EXPERIENCE

### Ikeworld Private Limited

Web Developer, Mar 2024 – Present, 📍 Kolkata

Key Skills & Expertise:

- **Front-End Development:** Designed and developed responsive web pages using HTML, CSS, Bootstrap, and JavaScript.
- **Back-End Development:** Developed and deployed dynamic web applications using PHP and MySQL for database management.
- **Email Functionality:** Integrated PHP Mailer for sending automated emails, including user registration, password resets, and notifications.
- **System Development:** Worked on school management systems (SMS), HRMS, result publishing platforms, and gaming result systems.

Projects:

- **Result Publishing Website:** Built a scalable and secure platform for publishing student results.
- **School Management System:** Developed modules for student records, attendance, and results.
- **HR Management System:** Integrated employee records, payroll, and leave tracking features.
- **Gaming Website Result System:** Designed a real-time result processing system for a gaming platform.
- **Email Automation with PHP Mailer:** Implemented email notifications, password reset functionalities, and automated alerts using PHP Mailer with secure SMTP authentication.

## SIDE PROJECT:

- **Weather app** built with React that fetches real-time weather data using the openweathermap API, tailwind css. [Code Project link](#)
- **Project Management System** built with React, Tailwind CSS, and Context API, featuring local storage data handling and a role-based login system for admins and employees. [Code Here](#)
- **Mini Laravel E-commerce App,** Built a product view, cart, and Razorpay payment flow using Laravel and Bootstrap. Focusing on only payment gateway integration. [Code Here](#)
