Mobile No: +91-9346677085

Email: [kesavakumar899@gmail.com](mailto:kesavakumar899@gmail.com)

**Career Objective:**

To give effective and efficient efforts towards the attainment of organizational goals by exploring a wide scope of knowledge and intelligence. Wish to achieve high career growth through a continuous learning process and prove to be an asset for the organization.

**Experience Summary:**

- Having 2.2 years of Professional Experience in **React JS programming Technology Frontend and MERN STACK Backend and PHP Codeigniter** Application Development.
- A disciplined web developer with 2 years of experience working with React JS, HTML5, CSS, Bootstrap, JavaScript, Material UI and MERN STACK Mongo DB, MySQL, . Able to work both as part of a larger team and individually.
- Expertise in creating React JS programming, JavaScript, HTML, CSS, and Backend.
- Having experience on codeIgniter 3, PHP and very good understanding of Data Warehousing concepts and data Analysis and Knowledge on PHP.
- Good Knowledge of Firebase project create and deploy and writing firebase programs in React JS
- Good Knowledge of Writing SQL Queries and understanding Requirements.
- Strong in database management concepts.
- I know JavaScript and am also good at handling these steps in APIs, REST, JSON, XML, and CSV.
- Having Knowledge in developing applications using JavaScript.
- Having Knowledge of extracting and loading data from/into multiple sources including Oracle, MySQL, Oracle SQL Flat Files, etc.
- Best Knowledge in designing and developing Applications using React JS, JavaScript and knowledge on create and develop an application using .
- Hands-on experience with React JS, JavaScript, HTML, CSS, MySQL, REST API gates, MongoDB, MySQL.
- Developed Own 3 applications Student, Employee and Shopping using React JS and MERN STACK, Mongo DB, MySQL.

- Well know AI Tools like chartGPT , Gemini etc.. how to use.
- Developed 3 web (Employee, Student, Lectural) applications own by using ReactJS and MERN Stack.

### **PROFESSIONAL EXPERIENCE:**

S.No	Organization	Designation	Duration
1	Walking CGI information systems and management consultant Pvt Ltd	Associate Software Engineer	July 2022 – Feb 2024

S.No	Organization	Designation	Duration
2	Walking VitueWireless Pvt Ltd	Associate Software Developer	March 2024 – Till Date

### **EDUCATION:**

**B.Tech (ECE) from JNTUK University, Narasaraopet with an aggregate of 70.0%.**

### **TECHNICAL EXPOSURE:**

<input type="checkbox"/> <b>Languages</b>	<input type="checkbox"/> ReactJS, JavaScript, MERN STACT, HTML, CSS, Core Java, PHP
<input type="checkbox"/> <b>Databases</b>	<input type="checkbox"/> MYSQL, Oracle, node 14.1
<input type="checkbox"/> <b>Operating Systems</b>	<input type="checkbox"/> Windows 10, Windows 2008
<input type="checkbox"/> <b>Tools</b>	<input type="checkbox"/> Express JS, Node JS, Eclipse2023-03, Visual Studio, GitLab , MongoDB, Postman, Oracle SQL Developer Version 20.4.1.407, Jira ,CodeIgniter3,BootStrap, Meterial UI.

### **PROJECT PROFILE:**

#### **Project:1**

Project Name	: InfoAdvantage GHS ADV FRMWRK(Globel health solutions advantage Framework)
Role	: Associte Software Engineer
Duration	: 2022-JULY to 2024-FEB
Client	: State of Arizona, Honolulu, illusions, State Michigan.
Tools	: MySQL, Oracle SQL Developer, MSSM
Tools	: Eclipse, Visual Studio, Express JS,

MongoDB, SQL developer, Postman.

**Description of the Project:** The motto of Arizona and different clients in the system is to ensure each student Isabel learns at his/her own pace. The objective of the project was to design an application using which the progress of the clients (in terms of academic performance, learning outcomes, and storing the data using the application and use the forms of application selected fields) could be tricked.

**Responsibilities:**

- Part of the Client calls to gather requirements and discuss the issues if any.
- Involved in planning, designing, and implementing of Development program.
- Developing forms and application designs based on the requirement.
- Fixing code and finding the solution when getting defects inspect code from the browser using localhost bring the code from GitLab will fix the code and push it into Gitlab.
- interacting with team members to discuss the planning of the program and solutions to problems.
- giving a demo of the project updates two weekly sprint demos and 2 months of PI meetings for more clarity on the project of all members.
- Attended any meeting required and discussed with team members based on clients' requirements and worked more hours for any requirement needs to.
- Give a daily update on project implementation and defects-fixing solutions.

**Project:2**

Project Name	: Client Calling Application
Role	: Associate Junior developer
Duration	: 2024-MARCH to Till Date
Client	: Calvery Temple , NV Global.,
Tools	: Express JS, Node JS,
Tools	: Visual Studio, MongoDB, Gitlab, SQL developer, Postman.

**Description of the Project:** The motto of Clavery and different clients in the system is to ensure each user have different logins to do calls for multiple customers. The objective of the project was to design an application using which the progress of the clients (in terms of academic performance, learning outcomes, and storing the data using the application and use the forms of application selected fields) could be tricked.

**Responsibilities:**

- Part of the Client calls to gather requirements and discuss the issues if any.
- Involved in planning, designing, and implementing of Development program.
- Developing forms and application designs based on the requirement.
- Fixing code and finding the solution when getting defects inspect code from the browser using localhost bring the code from GitLab will fix the code and push it into Gitlab.
- interacting with team members to discuss the planning of the program and solutions to problems.

- giving a demo of the project updates two weekly sprint demos and 2 months of PI meetings for more clarity on the project of all members.
- Attended any meeting required and discussed with team members based on clients requirements and worked more hours for any requirement needs to.
- Give a daily update on project implementation and defects-fixing solutions.
