## PROJECTS

---

**1. Crypto Currency website (<https://crypto-app-beige-phi.vercel.app>)**

**Tech Stack :** React, Chakra UI, Axios, API HTML, CSS

**Contribution:** I have developed a full-fledged Multiple Currency Data Website with multiple features fetch data using CoinGeco API and show chart related to exchange and coin.

**2. Case Converter (<https://caseconverter-three.vercel.app>)**

**Tech Stack:** React, Bootstrap, HTML CSS

**Contribution:** This is a website for Covert Text to different Case like Copy Text, Lower Case to Uppercase, uppercase to lowercase, Remove Extra Space etc.

**3. Netflix Clone (<https://netflix-clone-seven-beta.vercel.app>)**

**Tech Stack:** React, Axios, sass

**Contribution:** Created a Movie List Website which render each movielike card. It also gives the full information about any movie after just having a single click.
