https://www.linkedin.com/in/aditya-bharti-3b3662248

Full Stack Developer skilled in building scalable apps with **React.js, Next.js**, and **Node.js, Express.js**. Proficient in **Tailwind CSS**, **MUI**, **Redux Toolkit**, and **Axios**. Experienced with **PostgreSQL**, **Prisma ORM**, **JWT auth**, RESTful APIs, and **MVC architecture**, with a focus on clean and secure code.

Skill Summary

Frontend & Styling : React.js, Next.js, Material UI, Redux Toolkit, HTML5, CSS3, JavaScript (ES6+).
Backend & Databases: Node.js, Express.js, REST APIs, JWT Auth, MongoDB (Mongoose), PostgreSQL (Prisma).
Tools & DevOps: Vite, VS Code, Postman, pgAdmin, Figma (basic), AWS EC2, S3, Git, GitHub, Nginx.

Work Experience   Techdock Labs | Lucknow | Full Stack Developer Feb'24 – Present

Project: Aapno Bhimanyu (Admin Panel)
Built an admin panel for Aapno Bhimanyu to manage constituency operations, including users (students, mentors, party workers) and social media platforms. Created a comprehensive admin panel to manage users, study materials, appointments, posts, policies, and engagement features.

- Created a comprehensive admin panel to manage users, study materials, appointments, posts, policies, and engagement features.
- Integrated Firebase for real-time notifications and handled social media, news, and content updates.

Project: ApeBuzz, ApeItNow, ApeLabs – (Admin Panel)

- **ApeBuzz**: A mobile app designed for users to send buzz, helping expand their personal and professional social networks. Users can also earn Buzz Count coupons, which can be redeemed to reduce product prices on the ApeItNow e-commerce website.
  Link: https://play.google.com/store/apps/details?id=com.apelabs.apebuzz
- **ApeItNow**: An e-commerce site for headphones and t-shirts, built with Next.js (frontend) and Node.js (backend).
  Link: https://www.apeitnow.com
- **ApeLabs**: A mobile app for audio streaming and song management.
  Link: https://play.google.com/store/apps/details?id=com.apeitnow.apelabs

My Role: Develop and maintain admin panels for managing content across all three platforms.

Project: Zatak (POS Platform) – Ongoing project (https://www.zatak.store/)
Developing full-stack applications with **Node.js**, **PostgreSQL**, and **Prisma ORM** for backend APIs, and **React.js** with **Material UI** for intuitive, responsive UIs. Built a merchant-facing **web panel** and a **mobile app** for caretakers, distributors, and customers to manage inventory, orders, and deliveries—featuring **invoice printing**, **role assignment via barcode**, and **offline support** using **Progressive Web App (PWA)** capabilities.
