Objective

I want to utilize my skills and potentials to achieve the challenging position in Software Industry and fulfill the organization goals.

Skills

Programming Languages Java, J2EE

Java Technologies JavaSE, JavaEE.

Distributed Technologies

Restful Services.

Frameworks Spring with Spring Boot.

Databases Oracle10g, MySQL5.

Design Pattern

Singleton, Strategy and Factory design.

Web/App Servers Tomcat, Jboss.

IDE Eclipse and STS.

Testing Tools

JUNIT

Web Technologies

HTML, XML, Servlets, JSP

Tools

Maven, GIT, Log4j

Professional Summary

- Over 1+ years of experience as a Software Engineer (Java Developer) in developing web based, distributed J2EE Enterprise Applications and implementing Object Oriented Programming (OOP) with Java, J2EE.

- Area of the expertise in server-side programming using JDBC, Servlet & JSP.
- Good knowledge in Spring, Spring Boot, Spring Rest.
- Knowledge of Spring AOP and Hibernate ORM.
- Experience in developing REST web services using JAX-RS and Spring Rest.
- Proficient in developing services using **Spring.**
- Experience in developing services using Spring Modules like **IOC, MVC, JDBC**.

- Expertise in **Spring** and **Spring Boot Framework, Spring JPA, Web Services (Rest)**.
- Hands on experience in **Junit, Log4J**.
- Having experience on Tomcat Server, WebLogic and JBoss Server.
- Worked on IDEs such as Eclipse and STS.
- Hands on Experience on tools such as Postman, Git, MAVEN.

- Worked on databases like **Oracle** and **MySQL**.
- Very good understanding of code repositories – GITHUB.

JOB PROFILE

Worked as a Software Engineer in **Wipro limited** form 31 Mar 2022 to 21 Apr 2023.

PROJECT
Title: **Integration Data Management Server (IDMS).**
Team Size: 5 Member
Role: Java Developer

Description

Integration Data Management Server (IDMS) is a central server application that handles Parts and Transaction information from a warehouse and to E-Commerce Application, which launches a communication medium using secure web-service. Supportive administration with Transaction reports and Graphs are handled using report manager services.

Responsibilities

- Worked in agile framework as an individual contributor.
- Involved in Sprint and Epic meetings.
- Understanding Stories given by BA.
- Code Modules based on Acceptance Criteria.
- Coded Entities, Services and Controllers.
- Developed Rest API's using Spring Boot.
- Involved in collecting the requirements from Client.
- Interact with Management to understand the requirements and clarify the doubts.
- Worked for the user requirements and prepared the software functional activities.
- Also involved in coding of all Logging Activities using Log4J Framework.
- Coordinated with co team members to develop high level business and technical Document
- Used Spring Data JPA to integrate with balance and Transaction DB's with the database.
- Involved in performing Unit testing using Junit, Mockito.

PROJECT
Title : CAR (Customer Authentication and Relationship)
Team Size : 4 Member
Role : Java Developer

Description:

Car is integrated view of customer information across all product lines. The CAR application has been built around common data model that will support authentication and aggregation it will also retrieve the essential details of the products that have been taken up by customer. Functional feature of Daemon process automated validating of files by various fees system. consolidating the files. Functional feature is Intranet module is contact creation on approval contact modification, Functional feature of message handler is authenticating request message received and sending the corresponding response message with the necessary account details.

Responsibilties:

- Involved in collecting the requirements from client
- Interact with management to understand the requirements and clarifying the doubts.

- Worked for the user requirements and prepared the software functional activities.
- Coded all the POJO's required for this system.
- Involved in designing view pages using spring mvc.
- Invloved in coding DAO classes and mapping files.
- Also involved in coding all logging activities using Log4j framework
- Participated daily in scrum meets to discuss different issues in the project.
- Coordinated with co-team members to develop high level business and technical documents.

CERTIFICATION

- **The Complete Java** issued by **Udemy**.
  Date of Completion: **MAY 18,2022**.
- **Spring MVC** issued by **Udemy**.
  Date of Completion: **JAN 26,2023**.
- **JIRA** issued by **Udemy**.
  Date of Completion: **APR 27,2022**.
- **GIT** issued by **Udemy**.
  Date of Completion: **MAY 4,2022**.

EDUCATIONAL PROFILE

Master Of Computer Application (MCA) from Feroze Gandhi Institute Of Engineering and Technology, Raebareli (AKTU Lucknow) Uttar Pradesh in 2019.
