## PROJECTS

---

**Mentor Language Institute** Developed a CRM web application for an institute with student, teacher, and admin panels, facilitating seamless connectivity among users. Utilized MERN stack, JWT for authentication, RESTful APIs, Redux, and various libraries and packages to enhance functionality and user experience. ([Try it here](#))

**ReferBiz** revolutionizes referrals with MERN stack and JWT authentication for incentives. It connects vendors with affiliates, enhancing user experience and fostering mutual benefits. ([Try it here](#))

**Diamond Ore** is a dual-purpose platform, serving as the company's site and a BFSI job portal. Built on MERN, it streamlines job processes and offers curated recommendations, revolutionizing BFSI job searches. ([Try it here](#))

**The Melomaniacs** is a music social network on MERN, integrated with Spotify. Users connect, discover similar tastes, and chat to explore new music. Designed with MUI and Figma for music enthusiasts.

## LEADERSHIP

---

- As IT Department Head at Innovision - an annual technical and cultural fest, led the tech team for the annual cultural and technical fest. We developed a dynamic website that kept participants and coordinators informed with real-time updates and event announcements.
