# MOHAMMAD WARIS

Full-Stack Web Developer

+91-7084012929 • Maghar, Uttar Pradesh, India • Portfolio • Linkedin github.com/themdwaris • mdtech9900@gmail.com

### PROFILE SUMMARY

Results-driven and self-taught Full Stack Web Developer with a strong foundation in MERN Stack (MongoDB, Express.js, React.js, Node.js) and modern front-end tools including Next.js, Tailwind CSS, and Redux. Experienced in designing and developing scalable, responsive, and user-centric web applications. Proficient in implementing RESTful APIs, authentication & authorization, real-time communication, and payment gateways. Passionate about solving real-world problems through clean and efficient code.

#### TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript ES6+, React.js, Next.js, Redux, Tailwind CSS

Backend: Node.js, Express.js, MongoDB, Firebase, REST API

Tools & others: Git, GitHub, GitHub-Copilot, Cursor, ChatGPT, JWT, Stripe, Socket.io, Postman, Vercel

## **PERSONAL PROJECTS**

Full-Stack Look Ecommerce (live.demo.video | look.vercel.app | GitHub)

Functional and responsive modern e-commerce website named Look, built with React Express Nodejs MongoDB.

- Developed and deployed a full-featured e-commerce application with secure JWT-based user authentication for signup, login, and logout functionality.
- Built a role-based admin panel enabling product and order management, including add, delete, update, and status change operations.
- Designed a responsive and dynamic user interface with React. is and Tailwind CSS, including product carousels and individual product detail pages.
- Implemented cart functionality with CRUD operations, accessible only to authenticated users.
- Developed advanced filtering and sorting features by category, sub-category, price range, and search by product name.
- Integrated Stripe payment gateway and Cash on Delivery (COD) options for checkout, with post-payment order tracking and redirection to the order summary page.

# Full-Stack Real-Time Chat App (live.demo.video | chat.app.vercel | GitHub)

Developed a real-time chat app with **MERN stack** and **Socket.io** enabling instant messaging between users.

- Implemented JWT-based authentication for secure user signup, login, and logout.
- Designed a modern and mobile-responsive UI allowing users to search and initiate chats features.
- Developed real-time messaging features supporting text, images, videos, emojis, and live timestamps using Socket.io.
- Added CRUD functionality for profile update with persistent data in MongoDB

### **EDUCATION**

**Bachelor of Computer Application** 

**Self Taught** 

Makhanlal Chaturvedi National University, Bhopal

Google, YouTube, Udemy, ChatGPT, freeCodeCamp
